DR. HOSTETTER'S

STOMACH BITTERS

THE OPERATION OF THIS PALATABLE remedy upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties.

Invigorate the System.

Vigorous digestion and pure bile produce nutrious blood, and nutricious blood a healthy frame. Does the victim of a dyspeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and the other fluids of the body purified?

Dr. Hostetter's Stomach Bitters.

Will accomplish this desirable revolution in the system regulating the secretions and excretions, giving tone to the animal juices which dissolve the food, strengthen every relaxed nerve, muscle and fibre, and brings the whole machinery of vitality into vigorous and healthful play.

Strengthen the System.

The best means of imparting vigor to the broken down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

Dr. Hostetter's Stomach Bitters.

Debility, from whatever cause arising, may be cured; strength, in whatever manner it may have been wasted, may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific.

A Word to the Aged.

In the decline of life the loss of vital force consequent upon physical decay can only be safely supplied by some vivifying preparation which recruits the strength and spirits, without entailing the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged

Dr. Hostetter's Stomach Bitters,

As an invigorant and restorative, immediate in its beneficial action and permanent in its effects. It tones the stomach, improves the appetite, and acts like a charm upon the spirits.

For Females.

Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervious headache, vertigo, general debility and all peculiar disturbances and derangements to which, as a sex, they are subject. It cheers and enlightens the depressed mental powers, as well as strengthens the body, and its use is never followed by any reaction.

☞ BEWARE OF COUNTERFEITS. Purchase only of reliable dealers. Sold everywhere.

HOSTETTER, SMITH & DEAN, Agents
227 Montgomery street, (Russ Block.)
San Francisco.

☞ FOR SALE BY
W. H. OLIVER, Victoria, V. I., and all respectable Druggists, Grocers and Liquor dealers au13-1mos

MR. LANDALE,

Civil & Mining Engineer,

MAY BE CONSULTED ON ALL MATters connected with Roads, Railways, Quays, Docks, Piers, Canals, Culverts and general drainage. Also, Coal or Copper Mines, their working and Drainage.

Designs and Estimates for Machinery with specifications provided.

Address,
Resident Engineer, Harewood Railway,
au19 tf Nanaimo, Vancouver Island.

NOTICE.

THE ORIGINAL HOWE SEWING MACHINE, adapted to every variety of Sewing in Families or Manufactories. These machines received the PRIZE MEDAL at the WORLD'S FAIR at London, 1862 and have been extensively used in Europe for fourteen years. The New Style Improved Machines are acknowledged superior to any in use. We want a good Agent who is somewhat versed with Sewing Machines for Victoria. Address

DEWING & CO.,
San Francisco,
jl11 1m Sole Agents for the Pacific Coast.

THE BRITISH COLONIST

Friday Morning, Sept. 9, 1864.

To Advertisers & the Public.

THE DAILY BRITISH COLONIST, published every morning (Sundays excepted), is the largest and most widely circulated journal in Her Majesty's Possessions on the Pacific.

Resident Subscribers may have the same left at their residence at 25 cents per week, by furnishing their address at the Office of Publication.

THE WEEKLY BRITISH COLONIST, published every Tuesday, will be mailed or left at the residence of Subscribers, ready for mailing, at 25 cents per week, payable to the carrier.

JOB PRINTING.

THE BRITISH COLONIST PUBLISHING COMPANY having received a large addition to their stock of new and beautiful jobbing type, will execute orders to any extent with neatness and despatch, at a slight advance on San Francisco prices.

THE NAVIGATION OF THE SOUND.

The announcement made in our yesterday's issue in reference to the exclusion of our vessels from Puget Sound is naturally exciting much discussion and some little indignation. The order from Washington, prohibiting any but American bottoms going farther on their way to the Sound than Port Angelos is one that cuts both ways, and can only tend to injure American as well as British interests. We alluded cursorily in our local columns yesterday to the injury it is likely to do the lumber trade of the Sound; but it will, in fact, hurt every other branch of industry and commerce in the inland waters of the neighboring territory with the exception, probably, of boat building. Shutting out British ships from the numerous saw-mills on the Sound will simply drive these vessels to seek a lumber cargo on Vancouver Island, and will raise the American freights. So far, then, the new arrangement would give an immense impetus to our lumber trade, and promote the erection of saw-mills in every estuary and bay along the coast. Much however, as we value this trade we do not desire its increase at the expense of another, and we believe, ultimately, more important one—that of boat-building. Between the extravagant liberality of our navigation laws and the intensified illiberality of those of our American neighbors, the growth of this industry has been sufficiently retarded on Vancouver Island. The Puget Sound exclusion mandate will now, however, be its death-blow. No shipowner will think of spending money on a British bottom, when an American-built vessel has nearly every advantage that belongs to a ship under the English flag, besides the very exclusive privileges enjoyed by the mercantile marine of our neighbors across the Straits. If there is one branch of industry more than another to which Vancouver Island is specially adapted, it is ship-building. With ordinary encouragement the Victoria of the future would be the St. John of the Pacific. The recent action, therefore, of the Washington authorities is peculiarly hurtful to our prospects in this respect, without, in a corresponding ratio, benefiting the people on the Sound. We know that in the course of time, we shall be able to carry out retaliatory measures, and preclude American shipping from enjoying many of its present privileges in our own waters; but two wrongs cannot make a right, and we have no desire to emulate the narrow-mindedness of the American Government in its shipping regulations. The English navigation laws, which have done so much, by their preposterous favors to foreigners, to injure the shipping trade of the colonies, are, as we have already said, obstacle enough in the way of our boat-building; but when we find the impediment supplemented by the Government at Washington stepping in at this eleventh hour to enforce such rigid regulations as those now in vogue on Puget Sound, we can only say we are peculiarly unfortunate.

Our trade with Puget Sound is becoming one of great and growing importance, and we fondly looked forward to the day when the inhabitants of the neighboring territory would be our most extensive customers. If such obnoxious orders, however, are to be issued from Washington as the one to which we refer, we are afraid we shall have to restrain our sanguine expectations. The only hope which we have in the matter is that the people of the Sound, who are equally interested with ourselves in having an unrestricted navigation of their waters, will make every exertion to induce the Federal Government to retract this late uncalled-for and injurious order. Against the heavy protective tariff of the States we are not, like the English journals generally, disposed to cavil because we believe, however much it is hurtful to British manufactures, it is at least building up those of the Republic; but this recent act has no such plea to recommend it, for it will prove as distasteful to the inhabitants of Washington Territory as it is to ourselves.

Fish! Fish!

THE PUBLIC ARE RESPECTFULLY informed that the undersigned has seen what an inconvenience the want of a regular Fishmonger must be to the inhabitants in the suburbs of this City; he has therefore taken out a license and made arrangements with the Fishermen of this port for a supply of

Every Kind of Fish

That comes to this Market, which he will sell at your doors at the market price

Your patronage will ensure prompt attention to business, day by day, during the year.

se9 HENRY BURSTOW

ST. ANDREW'S SOCIETY.

THE USUAL MONTHLY MEETING of this Society will be held in the Court Room, Bastion street, on the Evening of Tuesday, 13th instant, at 8 o'clock, for the transaction of important business.

DAVID B BLAIR, Secretary.

Victoria, Sept. 9th, 1864. se9

In the Supreme Court of Civil Justice of British Columbia.

WHEREAS, A PETITION FOR ADjudication of bankruptcy, bearing date the 22d day of August, 1864, hath been duly filed against Phillip Smith and Robert Dunkail, of Douglas, dealers and chapmen, and they having been declared Bankrupts, are hereby required to surrender themselves to his Honor Matthew Baillie Begbie, Judge of the Supreme Court of Civil Justice of British Columbia, on the 10th day of October next, at 11 o'clock in the forenoon, at the Court House, Lillooet, and on the 5th day of November, at 11 o'clock in the forenoon, at the Court House New Westminster, and make a full discovery and disclosure of their estate and effects, where and when the creditors are to come prepared to prove their debts, and at the first sitting to choose assignees, and at the last sitting the said Bankrupts are required to finish their examination. All persons indebted to the said Bankrupts, or that have any of their effects, are not to pay or deliver the same but to Mr. Arthur J. Bushby, of New Westminster, the Official Assignee appointed by the Court.

THE BRITISH COLONIST

Friday Morning, Sept. 9, 1864.

COMMERCIAL.

Auction Sales This Day.

J. P. DAVIES & CO. will sell at salesroom, Wharf street, at 11 o'clock a. m., Groceries Liquors, Sundries, to close consignment, Hams, Vinegar, Cheese, Tobacco and Cigars, Sherry Wine, Lard, Ale and Porter. Boots Clocks, Caps, also ex steamer Brother Jonathan, from San Francisco, Steel Heel Boots, Brogans, Balmoral, Boots, Ales, Lobsters, etc.

FOR THE SOUND.—The steamer Eliza Anderson left yesterday for Olympia and way ports with about 20 passengers and some freight. The steamer G. S. Wright also left for the Sound yesterday.

FOR SOOKE.—The steamer Enterprise left yesterday morning with a few passengers and freight for Sooke, and returned in the afternoon with about half a dozen passengers.

FOR FRASER RIVER.—The steamer Lillooet left yesterday afternoon with passengers and freight for Fraser river.

FOR CHINA—he clipper ship Fairlight has been chartered by Messrs. Anderson & Co. to load lumber at the Alberni mills for Shanghae.

LOADING AT NANAIMO.—Ship Dublin, H. M. S Devastation, steamer Alexandra, and coasting craft.

FROM NANAIMO.—The steamer Emily Harris arrived yesterday afternoon from Nanaimo.

IMPORTS.

Per steamer UNION, from British Columbia—5 pkgs fur—Value, $2,000.

STREET IMPROVEMENTS.—A meeting of property holders was held yesterday at Messrs. Franklin's office, to take into consideration the advantages to be derived by extending Government street in a northerly direction until it meets the country roads. We believe that a committee of gentlemen interested have had an interview with His Excellency the Governor on the subject of aid being granted for the extension of the street beyond the city limits, in accordance with the official map. Several of the gentlemen holding property in the neighborhood have subscribed liberally towards the project. A bridge will have to be constructed over the ravine near Mr. Finlayson's property, and when the street is laid out and graded to the extent contemplated, it will be the finest and most imposing street in the city. At the corner of Yates and Government streets we notice that considerable improvements have been effected by Mr. Zelner, chemist and druggist, and Mr. Lash, draper, etc. The old flooring in these premises has been taken up, and new flooring laid on a level with the grade of the sidewalk, while new and handsome shop fronts have been fitted. Messrs. Baker & Co. have removed their boot and shoe business to the building on the opposite corner of Yates and Government streets, formerly known as the Liverpool Market, which has been specially fitted up for the purpose. Mons. Driard's elegant brick building, next the Colonial Hotel, on Government street, is rapidly approaching completion. The old Star and Garter Hotel is undergoing a few changes under the superintendence of Messrs. Shirpser Bros., of Yates street, who will soon metamorphose the building into a fine commodious store. Further on, towards James Bay, Mr. Huskinson has finished two very handsome stores, adapted to any business, but more especially for fancy or dry goods.

THE SHIPPING EMBARGO ON THE SOUND.—Our statement yesterday to the effect that British vessels were to be prohibited from going up the Sound above Port Angelos, proves to be correct. By last steamer U. S. Collector Gunn received an official despatch from the Secretary of the Treasury at Washington informing him that the laws of the United States prohibited all foreign bottoms from ascending or navigating any inland waters above the port of entry. The act referred to does not appear among the already-published U. S. statutes, and it is therefore probably a clause of the new act passed during the session of Congress just closed, and entitled "An Act for the regulation of the coasting trade on the north-eastern, western, and north-western coasts of the United States, and for other purposes."

COD FISHING.—The schooner Nonpareil left yesterday for the cod banks at the northern extremity of the Island. She will be engaged in fishing there for about three months. The Nonpareil has been fitted out for this adventure by several gentlemen in Victoria, and they have sent two experienced fishermen with Capt. Walter, well provided with everything requisite for the undertaking.

ISLAND PRODUCE.—We learn that the reward offered by Messrs. Elliott & Stuart for the best samples of Island grown barley has stimulated a number of farmers to bestow extra care on the cultivation of this grain, and that some fine crops have been grown in the neighborhood this season.

SUNDAY SCHOOL SOIREE.—The children of the Wesleyan Methodist Sunday School, with a large number of their parents and friends held a social tea party in the Pandora Street Church last evening. The affair passed off in the most pleasant and successful manner.

METCHOSEN ROAD.—The last Government *Gazette* contains a notice that sealed tenders will be received at the Colonial Secretary's office until noon of the 12th instant, for completing the work on this road from Craigflower farm to Parson's bridge, left unfinished by Mr. Ashe.

ARRESTED.—The steamer Lillooet was stopped yesterday morning by the Marshal of the Admiralty Court, upon some alleged claim for wages. She was released in the afternoon and proceeded on her trip to the Fraser.

AGRICULTURAL SOCIETY.—A preliminary meeting of this society was held yesterday at the office of Messrs. Franklin for the purpose of determining upon what prizes are to be awarded at the approaching show.

GUBERNATORIAL COURTESY.—His Excellency Governor Seymour notifies the public through the B.C. *Gazette*, that he will receive all who wish to see him on Wednesday and Saturday mornings, from 10 to 2 o'clock.

THE GOLD BROOCH AND KEYS recently advertised in the COLONIST, as lost on the Saanich road, were found by an honest Indian and returned to the owner. The finder received the reward offered.

THE STEAMER "HOPE" was knocked down by Mr. Backus to Mr. P. McQuade yesterday for $1700.

ESQUIMALT GRAVING DOCK.—We hear it stated that this work is to be proceeded with immediately.

JUSTICE OF THE PEACE.—Major Foster has been gazetted as a justice of the Peace for Vancouver Island.

From the Sooke Mines.

ANOTHER NUGGET.

One of the members of the Alberni Company, who arrived last night from Leech river, has shown us a splendid nugget intermixed with quartz, about the size of a small hen egg, and containing about two ounces of gold and ¾ of an ounce of quartz. This beautiful nugget was found by our informant lying under a boulder on the Alberni claim, and must evidently have been washed from the hills. The company have been busily occupied building a house and making preparations for work. They only commenced sluicing to-day. Two men have been washing with a rocker for about a week averaging about an ounce per day to the man. The company intend making a search for quartz ledges in the hills.

THE SCANDINAVIAN Co are averaging about *eight ounces* per day with sluices. There are only three members in this company.

THE MOUNTAIN ROSE are washing out from four to five ounces a-day.

THE AVALANCHE Co. are sawing lumber for sluices.

THE FREDERICK'S BAR Co. are taking out good pay.

Those companies who are working seem to be quite satisfied.

Much rain has fallen during the last day or two on the creek.

A bear made his appearance on Tuesday afternoon, and was shot by a man named Hunt with a revolver. Bruin weighed 300 pounds.

The store keepers appear to be doing well on the creek, and prices of provisions, &c., have fallen.

THE JOHN STEPHENSON.—This vessel which has on board the dredging apparatus from England, is now considerably overdue, and it is feared unless she has been detained longer than anticipated at Valparaiso, that her ill luck has followed her during the latter part of her voyage. The following notice of her mishaps appears in *Wilmer & Smith's Times* of July 16th:—

MUTINY AT SEA.—The bark John Stevenson, Captain Westlake, of 392 tons, arrived from London at Valparaiso on the 27th May last. This vessel arrived with only the captain, mate, two boys, and four passengers on board, the crew having risen on the master when the vessel was off Coronel, to the south of Talcahuana. They handcuffed the captain, bound the mate and boy, and locked the four passengers in their berths. After which they launched the boats and abandoned the ship, taking with them a quantity of provisions and spirits. They arrived at Lota, where they were apprehended on suspicion, having in their possession a quantity of new clothing, which they were endeavoring to find purchasers for.

NEW U. S. CUSTOMS REGULATIONS.—"An Act to prevent smuggling and for other purposes" recently passed by the United States Congress, contains some rather stringent provisions, as well as some new features which affect the traffic between this city and the neighboring States. It provides that all goods, wares and merchandise, and all baggage and effects entering the United States from any contiguous foreign country, shall be unladen and inspected in the presence of a United States official, at the first port of entry when they arrive. To avoid this inspection, the act provides that all goods may, on application to an authorised United States officer, be inspected by him, and sealed or closed, and that they shall then be freed from further inspection on arrival at the United States port of destination. The act also provides that the Secretary of the Treasury shall make the necessary regulations in regard to the sealing, &c., of goods, baggage, &c.

MORE COAL DISCOVERIES.—Mr. Robinson, Mining Engineer and formerly Superintendent of the coal mines at Nanaimo, and two others, having recently discovered a valuable seam of coal in the neighborhood of Nootka Sound, have applied to the Government for a grant of a lease for the same, and as they appear to have complied with the terms of the Governor's proclamation of June 11th, relative to such matters, we understand their claim has been granted. The seam is said to be about 6 feet thick and the quality is represented to be superior to any yet found on the Island. The largest ship in the navy can lie in safety within 20 yards of the seam in a fine capacious and well sheltered harbor.

THE FIRST TOWN-SITE SALE.—A large number of lots in the Muirton town-site were sold yesterday morning by Messrs. Duncan & George. The sale caused considerable interest, and elicited some competition. The following are some of the prices: Lots 1 to 5 in Block 3 (water lots) $55 and $65; Lots 1 to 7 in Block 4, $35 to $40; Lots 2 to 11 in Block 9, $26 to $49 50; Lots 1 and 3 in Block — $37 50 and $65; Lots 5 to 11 in Block 5, $20 to $30; Lots 2 to 6 in Block 1, $52 50 to $77 50; Lots 1 to 12 in Block 6, $20 to $33. Some 50 lots were sold in all. The sale will be continued to day.

THE SURVEY OF THE OVERLAND TELEGRAPH.—The British Columbia Government *Gazette* publishes the following notice:—"Dr. Rae being expected to arrive shortly in this colony by way of the Rocky Mountains, for the purpose of completing the survey of the line of telegraph from the Red River to New Westminster, the Governor requests that all magistrates, constables, or other public officers will furnish him with such aid and assistance as he may require."

LEVANTED.—The party to whom we alluded yesterday morning as having left for "parts unknown," was a well known agent and collector in this city. He is not supposed to have taken much money with him, the principal amount being $600 belonging to a certain estate for which he was receiver, and for which services the estate owed him the quarter part of the sum in his hands.

OVERBOARD.—A passenger by the mail steamer on Wednesday evening, being considerably "elevated," fell from the gangway while going on board and disappeared in "the bosom of the briny deep." John Costello was on hand, *of course*, and speedily restored the bibulous individual to a more congenial element.

THE CONCERT.—We are pleased to learn that all the tickets for reserved seats at the approaching Volunteer Concert have already been sold. One of the boxes, which has been thrown back on the committee's hands, will be offered at auction at the theatre to-day, so as to avoid offending any of the numerous applicants for it.

A GOOD MOVE.—We learn that there is a strong probability of the Vancouver Agencies of the Fire Insurance Companies being authorised to contribute $1000 to each of the Fire Companies. We hope that such may prove to be the case.

DESERVED.—Mr. S. L. Kelly has been presented by the Tiger Engine Company with a handsome and valuable gold-headed cane, with inscription, in recognition of his long and faithful services as foreman of the company.

ALBION IRON WORKS.—Messrs. Spratt & Kreimler's foundry has received a great acquisition in the arrival of some experienced hands from San Francisco. Any description of work can now be promptly executed.

FIRE DEPARTMENT.—Mr. S. B. Abbott having declined to be re-nominated Assistant Engineer of the Fire Department, the nomination has fallen upon Mr. H. A. Pickett.

CITY COUNCIL

Thursday Evening, Sept. 8.

A special meeting of the City Council was held last evening in pursuance of notice published in the COLONIST. Present, His Worship, the Mayor, and Councillors Stronach, McDonald, Wallace, Ewing and Bunting.

THE JOHNSON STREET ENCROACHMENTS.

The following report was read by the Clerk:

The committee appointed to wait upon His Excellency Governor Kennedy, relative to encroachments on the water front at the foot of Johnson street, and also with reference to the general state of Corporation affairs, beg leave to report that they waited upon His Excellency and were most courteously received.

His Excellency assured the Committee that if the Parliament, about to be convened, continued in session long enough, he would see that an Incorporation Act was introduced, and at all events he would have a bill introduced to become law before November.

Your committee are of opinion that a communication should be addressed to His Excellency, stating that the Council are not at present in a position to commence a suit for the recovery of the property at the foot of Johnson street and requesting the government to take such steps as it may deem best to secure the same for the benefit of the city.

Upon motion of Mr. Wallace the report was adopted.

The following resolution was moved by Mr. Stronach and passed:

That a communication be addressed to His Excellency stating that under present circumstances the corporation are not in a position to take any active measures for the recovery of the water front at the foot of Johnson street, and inasmuch as the Council consider the same of great public importance, they respectfully pray that His Excellency will cause such steps as he may deem best to be taken in order to secure the public land at the foot of Johnson street for the benefit of the city.

Council adjourned to the usual hour on Monday evening.

SUPREME COURT.

[BEFORE CHIEF JUSTICE CAMERON]

SUMMARY SUIT.

Martin vs. Pickett & Co.—Mr Dennes for the plaintiff. Mr Drake for the defendant.

Suit to recover $127 50 alleged to be due from defendants to plaintiff for services as bookkeeper from September, 1863, to January, 1864.

The defendants pleaded never indebted and payment

The plaintiff was examined and stated that he was engaged by one of the sons of the defendant to keep the books of the firm, the remuneration agreed upon being $10 per week. He had received from Mr. Pickett some $12 50 on account.

On cross-examination by Mr. Drake it appeared there had been transactions between the firm of Martin & Co. and the defendants and payments made.

After hearing witnesses on both sides, and the addresses of the attornies for their respective clients, His Honor gave judgment for the plaintiff for $52 62, this verdict to settle all transactions between plaintiff and defendants.

WILL NANAIMO EVER BE A LARGE TOWN?

EDITOR BRITISH COLONIST.—Sir, since I came here I have been often asked, by the speculators and others, "Do you think that Nanaimo will ever be much of a place?" I have answered in a general way yes—with a fine harbor—and the only good one on the western coast of the Gulf of Georgia between Esquimalt and Fort Rupert—extensive coal fields, considerable good timber, and some excellent land for grain, fruit, and stock—Nanaimo must continue to rise with the progress of the colony till, in ten years from that time, it will be a large town!

But whether Nanaimo is to make a rapid advance during the next five years, will depend much on the policy pursued by the directors of the Vancouver and Harewood Coal companies. If the latter company make Departure Bay the terminus of their railway and harbor of shipment, a village will spring up there, which may aid the general welfare of Nanaimo district, but it will weaken the best interests of the town and slacken its progress. I believe, however, that the local managers, if not the directors, are beginning to see that it will be vastly to the interest of both companies, as well as the community generally, that the Harewood Railway should come to the harbor of the present town, and that the road can be built for about half what it would cost to make it to Departure Bay. A united harbor and concentrated town will enhance the value of the landed property of both companies, and attract private investment and enterprises. If we look to the interest and happiness of the west there is not a department of what is required to constitute so-called good society, that would not say give us a united town. The commercial, mechanical, postal, educational, religious, judicial, medical, and other callings and interests will be greatly advantaged by the concentration I advocate.

Then let both companies throw open every department of labor and commerce to private enterprise and public competition, as far as possible. I believe also if laborers were required to provide their own houses, fire, tools &c., and receive wages sufficient to allow them to do that, it would greatly improve society, advance the town, and benefit the employer and the employed. While the company have their large store, filled with almost everything, their little dram shop, their quiet boarding house, do their own teaming, blacksmithing, carpentering, and get nearly all their outside work done by day labor—private enterprise seeks some other locality, and Nanaimo progresses slowly and is destitute of many things which make up a pleasant and commodious town. It should be said, however, that we seem to be in a state of transition. Private enterprise is creeping in. There has been considerable building, fencing, &c. this summer by private parties, and I am told that Mr. Nicol, the intelligent and gentlemanly manager of the Vancouver Island Company, is feeling his way cautiously towards changing the policy as far as possible, in the direction I have hinted at, and giving his special attention to the coal mines and advancing the value of the lands of the company by building up the town, making roads, ditches, &c.

Mr. Dunsmuir, the energetic manager of Harewood, I believe will favor a liberal and progressive policy from the first, and advocates the idea of paying men not so much for the time they kill as for the work they do. Rewarding men according to their work is a rule laid down by the highest authority.

There are many who have bought lots here recently who are in favor of asking the Legislature, at an early date, for an act of incorporation and a municipal council. This would be a move in the right direction and greatly to the benefit of the town if the powers of the Council be simple and guarded. Would not this be a good time, when things are in a plastic and transitional state, to consider the propriety of allowing the town to take the government name "Newcastle?" The old Indian name "Nanaimo" could still stand for the district.

AN OUTSIDER.

NANAIMO, Sept. 1, 1864.

FROM PANAMA.

ARRIVAL OF A MISSING STEAMER.—The British steamer Darien arrived at Aspinwall on July 25th. The cause assigned for her detention is that she was delayed at Santa Martha discharging heavy machinery, after which it was discovered her coal was on fire, and that to be discharged. Again at Carthagena the coal was discovered on fire, and had to be again discharged, which occupied considerable time.

DRY TIMES.—The "oldest inhabitant" had never seen such a prolonged dry season as was afflicting the Isthmus at present.

A HEBREW GENERAL-IN-CHIEF.—Don Solomon, the son of Don Joseph Ibn Yechia, was, in the year 1190 A. C., appointed General-in-Chief of the Portuguese army, by King Sanctius I. and was the favorite of the Portuguese nobility no less than of the king. This Don Solomon Ibn Yechia was also distinguished as a philosophical author.—*Hebrew.*

THE DANGERS OF THE BATTLE-FIELD.

The following is an extract from an essay written by a celebrated Southern clergymen to inspire the soldiers of the Confederacy with a contempt for the dangers of the battle-field. It was picked up by a Federal soldier at the recent battle of Kenesaw Mountain.

LARGE ARMIES.

The more men in the army the more unwieldy and sluggish does it become, the more difficult is it to make them effective in action, the more on the sick list, the more killed by a given number of shots, the more transportation and provisions do they require, and the more unlikely that they will have a commander capable of directing their movements skillfully and usefully. These are most serious drawbacks to a large army, especially when far away from home. They will, of themselves, exhaust it in time. A small army, then, has every advantage of a large one, except in the single matter of numbers. They are more immediately under the eye of their commander, more readily concentrated, more prompt in reaching the points of attack, lose fewer in battle, and in retreat—orderly retreat, I mean—are absolutely unapproachable by their cumbersome foe.

CHARGE OF BAYONETS.

If the soldier forgets all else that I have written, or may write, let him not forget what I say upon this head. It has been said that in all Bonaparte's battles there were but three instances of a fight with bayonets. With these exceptions, whenever he or his adversaries brought the battle to a hand-to-hand fight, one or the other party invariably gave way. Now, he fought every nation in Europe, and, with one exception, always with inferior numbers. The Turks he fought in Egypt and Syria—a barbarous people. At Acre, he fought the Turks, assisted by the English. I do not remember that his troops ever recoiled from a charge of bayonets. Be that as it may, we all know that up to his Russian campaign, his battles were little else than one unbroken series of victories. I have inquired of a number of our officers and soldiers whether they ever witnessed a fight with bayonets during the war; and I have not found the man who has seen such a thing. And yet I have heard of a hundred, if not five hundred charges being made during the war. In all these charges, then, one or the other party must have given way. Now what is the conclusion from all this? Why, that whether you fight with civilised or barbarous nations, or with civilised and barbarous mixed, with loyalists or republicans, with equal or unequal numbers (the disproportion not being very great), you have only to stand firm in a bayonet fight to assure you of victory. There is nothing in war more certain than this. When the battle then comes to a cross of bayonets, whatever may be your alarms, see it through, and your triumph is sure.

CHARGING UP TO THE CANNON'S MOUTH.

This is considered the very acme of heroism. Well, now, there is not the one-tenth part of the danger in it that is generally supposed. The reason is plain. Cannon cannot be constantly adjusted to an ever-approaching object. Many of you know how wildly they shoot, until the gunner, by a number of experimental shots, "gets the range," as it is called, even of a stationary object. But that range is lost with every approach of the object to the cannon. None but an expert riflemen could shoot a squirrel rapidly descending a tree. Now, the movement of a cannon to hit an approaching regiment must be like that of the rifleman's gun, constantly lowering, but with a variable velocity, as the regiment approaches more or less rapidly.

If the regiment oblique a little from the first line of approach, the cannon must undergo two adjustments to hit it—the one perpendicular and the other lateral. Now, who is competent to make the lubberly thing fulfill all these conditions? No man that ever lived or ever will live. To keep a cannon sighted upon a moving object is difficult enough; but to load and fire it, and still keep it on the moving object, is impossible. "Marching up to the cannon's mouth," then, if done quickly, is demonstrably less dangerous than remaining stationary at exact cannon range.

A word more and I have done. Possibly, before the war ends, you may get under a General who may command you to pursue a routed foe. In that event, stop not as long as you can keep your feet. Bear hunger and thirst to the utmost point of endurance rather than stop; and cut off your arm sooner than pause to gather booty at such a time. The reason is obvious: when your enemy is in flight he is impotent, and you destroy him without hazard to yourselves. His dispersion is so great that he cannot be brought to face you again for months, if ever. His all falls into your hands. His spirit is broken for all time. And oh, remember as we pass along, that all these evils, half told, become yours when you flee.

COLONIZING THE NORTHWEST.

[From the N. Y. Journal of Commerce.]

Plans of the Canadian Government in regard to the great Territories lying between the eastern provinces and British Columbia, are in an exceedingly crude state, and yet are so connected with measures for the public defense and railway and telegraph and colonization projects, that in one form or another the subject is constantly obtruded upon the notice of Parliament. The tract claimed by the Hudson's Bay Company embraces 1,500,000 square miles, granted by a charter of Charles II. in the year 1670, until which time the lands were in the possession of France. In the same region is a district comprising an area of 60,000 or 70,000 square miles, represented by Sir G. Simpson and others, to be unsurpassed in fertility, but which is shut out from settlement by a barren intervening strip of 500 miles. At the present time, a disposition is manifested to renew the charge brought against the Hudson Bay Company under the old organization, of raising obstructions to settlement in that quarter, for fear of encroaching on the reserve for wild animals. This company, according to a report of its proceedings, continues to do a good trading business, the dividend for the year ending 31st May last having amounted to 4½ per cent., free of the income tax, besides leaving a balance of nearly £13,000 of undivided profit to be carried forward. The property of the company which appears on the balance sheet, comprising the territory in Rupert's Land, Canada, Vancouver's Island and British Columbia, corresponds to the large amount of £1,073,192.

The future of the great North-west Territory, now devoted to the production of furs, or set apart for the benefit of savages, is at the present moment the subject of negotiation between the company and the Canadian and and Imperial Governments. The Colonial Secretary has promised to make a specific offer to Canada of the privilege of annexation, on condition that the company be indemnified by the proceeds of the sales of lands. According to one of the leading journals, a crown colony, or a colony under the direct protection of the crown, would appear to be the most natural solution of the north-west question. A source of uneasiness, aside from the very reasonable desire to settle definitely the policy of the Government in regard to internal improvements, etc., is the strong tendency of the North-west settlements to unite their fortunes with those of the States—Minnesota being easily accessible from the Red river country. As stated by a member of the British Parliament a few days ago, "the question was whether this large territory, the habitable portion of which was about four times as large as England, and which had ample means of supporting a population of thirty or forty millions, should remain a portion of the British Empire or become an extension of the United States." As if to counteract this disposition to fraternise, the company has sent out out Dr. Rae with wires to establish telegraphic communication with British Columbia; but the directors distinctly assert that if the Canadian authorities are not prepared to overcome the natural difficulties which separate Canada from the north-west, a connection with St. Paul will soon become necessary. The trade already concentrating in this direction, although conducted by the primitive method of dog-trains, is becoming of considerable magnitude, and from present appearances is likely to take this channel permanently, long before the proposed railroads, settlements, &c., have any existence except in imagination.

HORRIBLE CATASTROPHE IN CANADA.

The following details of a shocking case of death by fire, which was briefly mentioned in our Canadian correspondence, published yesterday, appear in the Montreal *Herald*, of July 29th:

A correspondent who went from this city to St. Scholastique furnishes us with the following narrative:—

I regret much that the rumors of the loss of life and destruction of the Court-house and prison at St. Scholastique are too true. On Tuesday night, between the hours of eleven and twelve o'clock, the fire was first discovered in the Court house, in that portion of the first floor occupied as a kitchen by the jailor, Mr. Quinn. The servant sleeping in the adjoining room was the first who gave the alarm; this was about fifteen minutes to twelve o'clock. On awakening, Mr. Quinn immediately descended to examine where and to what extent the building was on fire; but, instead of instantly returning, he left the building to alarm the sheriff, who resided about one and a half acres distant. When he returned it was too late; the fire and smoke had extended from the kitchen to the only stairway leading to the cells. It is but right to say Mr. Quinn told Mrs. Quinn and the turnkey to release the prisoners, should they think it requisite, before he returned. Mrs. Quinn deserves credit for making exertions to do so, but unfortunately she was overpowered by the smoke that filled the stairway, and, becoming exhausted, had barely time to return to her own room and rescue her three little children, the youngest being an infant. About this time the alarm was general, the villagers rallying to render such assistance as they best could. Picture their horror on finding that within that burning tomb were six human beings on the point of perishing by the fire, if not speedily released from without. The shrieks of the three men confined in the inner cells imploring aid could be heard above all other noise. Men seemed paralysed. The cells are built to contain one prisoner in each; and each has a heavy iron-grated door at its entrance; bolted and locked. So confined, the inmates could not leave their cells to appear at the outer grated window. The fire was now in the story below them, and spreading with great rapidity. No ladders to ascend the windows could be found about the premises; but from a church at a distance of a quarter of a mile one was subsequently obtained. Fortunately the flooring between the fire and the prisoners was thick and deadened, keeping it from them at the time.

When the ladder arrived, a man mounted it, taking with him a sledge hammer. In a moment the sill of the passage window was broken to pieces, and the iron bars gave way. Two courageous men now jumped to the bottom of the passage, ten feet in depth.—They had no key to open the doors of the cells; but the sledge hammer was handed to them, and a few strokes did the work. The prisoners were now released from the cells, but death yet stared them and their rescuers in the face, for the window was ten feet from the floor. But ropes were handed to them in time, and they escaped with life. While these events were taking place in the second story, three more unfortunate prisoners were known to be in the story above them. These were not confined in cells, and they had full access to the windows; at one of which was one of the unfortunate victims piteously imploring: "Mon Dieu, sauvez nous! sauvez nous!"—Above her pale face the dense black smoke curled, as if gloating over its intended victim. To relieve her was now beyond the power of man. Men, women, and children, who were spectators of this scene, fell on their knees, praying the Almighty to pity her. At the topmost step of the fragile ladder, were the feet of the Rev. M. Barnabe, with hands clasping the iron bars, imploring the poor creature to prepare to meet her God. Here this good, pious man, at the risk of his life, gave the dying creature the last consolation of his church. Ere it was completed, the black smoke became red, and in it the poor girl fell back, to be neither heard nor seen again. Her mother and sister were victims with her, but neither of them were seen or heard from the outside. Suffocation no doubt came early over them. These three women had been confined for destroying a new born infant. The eldest daughter had given birth to it, and her mother was accused of the strangling of it. The poor young girl whom we saw at the window was held as witness against them. To-day the remains of one of them were found in the stove. No doubt the poor creature had forced herself into it in an attempt to save her life.

VICTORIA PRESENT AND FUTURE.

The following description of Victoria and neighborhood, is furnished by Mr. G. W. Heslep, a correspondent of the *American Flag*:—

Victoria is quite a pretty place, with wide streets and good sidewalks. One of the most attractive features is the well arranged gothic cottages in the suburbs, located on rocky mounds, amidst groves of fir and oak, and looking quite cosy. The harbor is small, but well protected from storms. The mail steamers and large ships run into Esquimalt harbor—three miles from the city—the water being much deeper.

Business appears rather dull at present, but I am informed that it is much better in the winter and spring, when the miners come down from Fraser river to lay in their supplies. The climate during the summer is delightful, the thermometer varying little from seventy to eighty degrees. The country along the Straits of Fuca and Puget Sound will furnish employment for a large number of ships in the export of timber and coal.—It is one of the finest timber regions in the world. The coal beds are numerous, but rather indifferent in quality, but I have seen a superior quality of coal from the Fuca Strait Mine, in Washington Territory, which has the appearance of anthracite, makes a hot fire, and but little ashes and smoke. If found in sufficient quantities, it will be an immense benefit to San Francisco, in supplying a much better article nearer home, and at less expense than the imported.

At no very distant day, on this portion of the coast, with its vast amount of latent wealth, which only awaits the strong arm of the miner, the lumberman and the farmer to develop its vast resources, you will see these beautiful inland waters whitened with sails from every clime.

THE PAPER QUESTION.—The *Alta* contains an article on the paper question, in which it recommends that journal publishers take into consideration the possibility of obtaining their paper from China and Japan at much less rates than eastern paper can be bought at. There are two or three paper mills in California, but it seems they cannot be depended on for a regular supply, because their power often fails them. Says the *Alta*: The value of newspaper annually imported at San Francisco is about $350,000. The sizes imported are chiefly 32x46 inches, 28x42 inches, and 24x36 inches. The largest size weighs about 50 pounds to the ream of 480 sheets, and is worth here from $9 to $10 a ream. The proportion of weight and price is about the same for the smaller sizes. China and Japan produce immense quantities of paper, and could send on all that we want. Whether they could give us paper suitable for newspaper at a less price than that paid for the eastern article is a question worthy of careful investigation. Transportation from China is more speedy, and freight cheaper than from New York.

THOMPSON'S LANDING.—Mr. Alfred Waddington went down to Sooke yesterday morning to take charge of the new town site at Thompson's Landing.

FINE AND HEAVY CUSTOM MADE CLOTHING for City Trade. The best tailors employed at A. J. Brunn's Establishment. Fine White American Shirts and Collars, Cravats, Gloves, Hosiery, Hats and Caps, etc., of the latest styles, always on hand. A. J. BRUNN, Government street, next to the Bank of British Columbia.

THE PROGRESS OF DENTAL SCIENCE.—No department of practical science or of operative art has made such signal progress within the last few years as that connected with the preservation, beautifying, and restoration of the teeth. Not only do we observe the success with which modern manipulation has remedied and averted all kinds of malformations in the young, but we see decay arrested in the outset, all its evil consequences securely prevented, and that most provoking of pains, the toothache, provided against by the simplest mechanical means and without one of those mischievous drugs which our forefathers have been accustomed to fly to in their agony, to the utter destruction of what remained sound. We owe a large share of modern improvements to MESSRS GABRIEL, the celebrated Dentists of London, Liverpool, and Birmingham, who show some exquisite specimens of workmanship at the International Exhibition. The white enamel stopping is proved to be faultless, whilst the most beautiful imitation of the natural gums and teeth (in the complete or partial sets), is to be found in their new patent Osteo Eidon—the only substance which is entirely free from noxious elements (coloring matters) and of which the adhesion is at the same time secured without any mechanism whatever. We are glad to hear that MESSRS. GABRIEL very courteously threw their laboratories open to public and gratuitous inspection.—As may be seen by reference to our advertising columns, Messrs. Gabriel supply Artificial Teeth and Gums on their patented system, irrespective of distance or climate.

STRENGTHEN THE SYSTEM.—The best means of imparting vigor to the broken down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in DR. HOSTETTER'S STOMACH BITTERS. Debility, from whatever cause arising, may be cured; in whatever manner it may have been wasted may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific.—Sold by Druggists and dealers everywhere.

INVIGORATE THE SYSTEM.—Vigorous digestion and pure bile produce nutritious blood, and nutritious blood a healthy frame. Does the victim of a dispeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and other fluids of the body purified? DR. HOSTETTER'S STOMACH BITTERS will accomplish this desirable revolution in the system regulating the secretions and excretions, giving tone to the animal juices which dissolve the food, strengthen every relaxed nerve, muscle and fibre and brings the whole machinery of vitality into vigorous and healthful play.—Sold by all Druggists and dealers everywhere.

HOLLOWAY'S OINTMENT AND PILLS.—Lumbago, Derangements of the Kidneys, Rheumatism, Tic-Doloreux.—All excruciating pains of the muscles and nerves are relieved with astonishing rapidity, by the use of this extraordinary Ointment. The affected parts, previously fomented with warm water, have only to be briskly rubbed with this soothing Unguent to obtain instant ease. Whilst the Ointment cures the local ailment, the Pills remove the constitutional disturbance, and regulate every impaired function of every organ throughout the human body. The cure is neither temporary nor superficial, but permanent and complete, and the diseases rarely recur, so perfect has been the purification performed by these searching, yet harmless preparations.

Fell & Company's
SPICES
ARE ALL GENUINE AND CONSEquently much stronger than the adulterated article imported to this colony.
MINERS & FAMILIES who study economy will protect themselves from fraud by asking only for such as bear the name of their firm, and which can be had from all respectable dealers.

REMOVED.
G. LANGE, CHRONOMETER AND Watchmaker, has removed from the Brick store of the San Francisco Baths, on Government street, to his own private dwelling house on Herald street, in the rear of the large two story frame building, where he will continue his business as before, and not being under any shop expenses whatever, will be enabled to do work still more reasonable than before, so that the trouble of customers walking out to Herald street will be well rewarded in having their work done well and cheaper than anywhere else.
DIRECTION—Herald street is the third street parallel with Johnson and the 4th lot from Store, where the sign of a Clock will meet the eye.
A fire and burglar proof Safe will secure your property. se3 1m

NEW ADVERTISEMENTS.

DR. J. COLLIS BROWNES
Chlorodyne.
CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.
ALL PAIN, VOMITING AND DISTRESS ceases in a few minutes after taking a dose of that wonderful SEDATIVE ANODYNE and ANTISPASMODIC remedy, CHLORODYNE, discovered by Dr J Collis Browne M.R.C S.L., (ex-Army Medical Staff,) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury square, London (Pharmaceutical Chemist). The medical testimony of civil, hospital, military and naval practitioners pronounces it INVALUABLE. It relieves pain of any kind, soothes the restlessness of fever, and imparts the most refreshing sleep, without producing or leaving any of the unpleasant effects of opium.
From W. Vesalius Pettigrew, M D., Hon. F.R.C.S., England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine: "I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am most perfectly satisfied with the results."
Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."
From C. V Ridout, Esq., Surgeon, Egham: "As an astringent in severe Diarrhœa and an antispasmodic in Colic and Cramps in the Abdomen, the relief is instantaneous."
Chlorodyne—Vice Chancellor Sir W. P. Wood, on Jan. 11, pronounced "that it is clearly proved before the court that Dr. J. Collis Browne was the original Inventor and discoverer of a remedy well known as Chlorodyne, and so highly appreciated in India, China, &c."
Extracts from the General Board of Health London, as to its efficacy in Cholera.
1st Stage of Premonitory—In this stage the remedy acts as a charm, one dose generally sufficient.
2nd Stage, or that of Vomiting and Purging—In this stage the remedy possesses great power, more than any other we are acquainted with, two or three doses being sufficient.
3rd Stage, or Collapse—In all cases restoring the pulse. So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of using it in all cases.
From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery." To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."
Caution—Chlorodyne—In Chancery.
It was clearly proved before Vice-Chancellor Sir W. P. Wood, by affidavits from eminent hospital Physicians of London that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's. See Times, Jan. 12, 1864. The public, therefore, are cautioned against using any other than Dr. J. COLLIS BROWNE'S CHLORODYNE. No home should be without it. Sold in bottles, 2s 9d and 4s 6d, by J. T. Davenport, 33 Great Russell street, London, W. C., sole manufacturer. Observe particularly, none genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government Stamp. Ju24 1yw

ROYAL MAIL Steam Packet Company's Agency,

For British Columbia & Vancouver Island.

OFFICE, MACDONALD & CO., BANKERS,

Yates Street.

THE ATTENTION OF SHIPPERS and passengers is particularly directed to the superior facilities the Royal Mail Steam Packet Company's Line affords for the speedy conveyance of Treasure, Goods and Passengers to and from England to British Columbia and Vancouver Island, in connection with the Pacific Mail Steamship Company's Vessels and the Panama Railroad.

The superiority of the accommodation and entertainment on board the Royal Mail Steamers, together with the time occupied on the passage between England and Aspinwall direct being so much shorter than by any other route, and the moderate rate of passage money, render this Company's steamers the CHEAPEST AND MOST EXPEDITIOUS MEANS OF TRANSIT, for passengers or for the forwarding of Goods and Treasure from Aspinwall to Europe

Under an arrangement with the PACIFIC MAIL STEAMSHIP CO., Specie and Bullion can be conveyed to London and Havre in France

Further information on the subject of Freight and Passage Money will be furnished by the undersigned.

Thompson's Landing,

Mouth of Sooke River.

THE PUBLIC ARE RESPECTfully informed that the Government Surveyor having completed the boundaries of the above Town Site, the plans and maps will be ready in a few days, when a limited number of eligible lots will be offered at private sale, on advantageous terms.

It is believed that Thompson's Landing offers superior advantages as a Town Site. Situated at the mouth of Sooke river, it is sheltered from the high winds which frequently render other points in Sooke Inlet insecure; it is connected with the new Government trail; and is the shortest and most expeditious route to Leech river

Steamers and other vessels can, drawing eight feet of water at low tide and thirteen feet at high tide, discharge freight and passengers at all times at the wharf of the company. In addition to which the erection of a very substantial new wharf is under contract, and will be soon completed.

A pack-train of animals is now on the spot ready to carry freight daily at low rates direct from Thompson's Landing to the Forks, supplying the different camps on Sooke as well as Leech river

The position of Thompson's Landing as a supply point to the already discovered gold fields, is manifestly unequalled; but in addition to this, no other location is as available as Thompson's Landing to the numerous auriferous creeks and rivers believed to exist east of San Juan Harbor. As a place of business, this Town must rapidly attain to considerable importance; and for residences it is one of the most picturesque spots on the Pacific Coast. It is healthy: the soil is good; it is the central point of a good agricultural country; and there is excellent water sufficient to supply a large population

Already the Town Site has a busy, bustling appearance, and it is confidently believed that every description of industry would immediately find profitable employment.

Persons desirous of securing eligible plots for business purposes, will have priority of choice by registering their names with either of the undersigned, or with P. M. Backus or Charles Street

The upset price is not yet fixed, but will be made as low as possible and every inducement will be offered to parties wishing to establish a business at Thompson's Landing

The Committee of Management of the Thompson's Landing Company confidently predict that purchasers of lots will secure to themselves an early and substantial profit on their investments.

J. J. SOUTHGATE, President.

(Signed.) CHAS. B. YOUNG, Sec'y pro tem.

au19

SOOKE CITY.

A SECTION OF GROUND (LOT NO. 10), situated on the N. E. slope of Sooke Harbor has been selected for a Town Site

The plot thus chosen is admirably adapted for the purpose, the ground being level and the water front deep enough for any vessel

The shortest road can be made from this point to the mines. The country through which the road will run is void of swamps and ravines, and interspersed with fine prairies suitable for agricultural purposes

A Wharf is being constructed which will be sufficiently advanced in about five days for the reception of steamers and other vessels

The trail is now being cut on a line leading from the Town Site direct to the mines, and a pack train will be put on at once

The TITLE to the above Town Site is direct from the Government.

Liberal arrangements can be made for immediate possession by those who propose making permanent improvements, erecting Stores, Restaurants etc.

It would therefore be advisable for parties who intend establishing themselves on Sooke Harbor to inspect the above site without delay.

For Map, Plans, &c., apply to

V. M. FOUCAULT.
Or, DUNCAN & GEORGE.

au12

Kennedy, Sooke.

IT IS MOST PROBABLE THAT A steady passenger and goods traffic will spring up between some convenient spot on Sooke Harbor and the Forks of the Leech River

The town site named Kennedy, at the place where the Government road (now fast approaching completion) touches the shore, combines every advantage of geographical position

As the road from Sooke to the Mines begins here, there is no need for transhipment, and the land travel to the Forks is shorter from this than from any other accessible point of the Harbor.

There is deep water close in shore, and at all times of the tide vessels of large size can come up to which a substantial wharf, now in process of erection, will afford every facility

The road from Victoria to the Mines via Sooke, passes within a hundred yards of the wharf.

The adjacent land is level, dry, and very fertile. There is a never failing stream of pure water close at hand. For underlying sandstone and conglomerate, the miner will be found at Sooke, it will be here.

Lots can be purchased or leased on very easy terms by application to

DR. ASH,
Fort street.

au18

To Lumber Merchants

—AND—

CONSIGNEES OF SHIPS!

THE UNDERSIGNED AGENTS IN Victoria, and in part Owners of the new Mill situated at Free Port, opposite Seattle, Washington Territory, respectfully invite the attention of parties shipping Cargoes of Lumber abroad to their facilities for furnishing cargoes and loading ships with despatch. Ship Masters and others acquainted with Puget Sound well know that Free Port is an admirable, safe and commodious harbor, and easier of access than any other port on the Sound. There is also plenty of water to allow ships of the largest class to load afloat at the Mill Company's Wharves.

The Mill Co. are now prepared to manufacture to order all kinds of

ROUGH LUMBER,

T. & G. FLOORING,

Boards & Planks

Surfaced on one or both Sides,

SHIP & DECK PLANK,

TIMBER

From 6 inches to 20 inches,

Square Planed out of Wind

ON ALL SIDES.

Having adopted the best known modern Machinery, the Mill is capable of making Lumber of all dimensions with great accuracy, and the Company are determined to supply the best qualities of both Rough and Dressed Lumber, which will be trimmed to any and all lengths required from 12 to 80 feet

The Mill Co. will also furnish

Cargoes of Piles & Spars

AT THE SHORTEST NOTICE.

Orders for Cargoes, which will be sold at the lowest market rates, are solicited by

J. G. JACKSON & CO.,
Agents for the
Free Port Mill Company.

WANTED TO CHARTER.... Vessels to load for San Francisco. au29

To Miners & Shippers.

THE PROPRIETORS OF THE Birkenhead Dock Ore Wharf, LIVERPOOL, have now completed their Copper Ore, Silver Ore, and Quartz Crushing Mills, and are prepared to receive Ores for crushing, sampling, assaying, and sale. Bar copper and other metals warehoused, and for which warrants are issued.

The wharf is in direct railway communication with London, Birmingham, Staffordshire, and South Wales. Vessels of the largest size can discharge at all times

Samples of minerals of all classes assayed and valued. The proprietors also undertake the consignment and sale of all metals at very moderate charges.

Apply to EDWARD LOGAN & CO.,
31 Cannon Street, West, London.
Or to SAMUEL JOHNSTON & Co.,
Liverpool.

ALL CURES MADE EASY!!

—BY—

Holloway's Ointment.

Bad Legs, Ulcerous Sores, Bad Breasts and Old Wounds.

No description of wound, sore or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance whenever this medicament is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflammation.

These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighboring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage: the most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout and Neuralgia.

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

Eruptions, Scald Head, Ringworm, and other Skin Diseases.

After fomentation with warm water, the utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach; consequently in many cases time is required to purify the blood which will be effected by a judicious use of the Pills. The general health will readily be improved, although the eruption may be driven out more freely than before, and which should be promoted; perseverance is necessary.

Sore Throats, Diptheria, Quinsey, Mumps and all other Derangements of the Throat.

On the appearance of any of these maladies the Ointment should be rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat. This course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions

Scrofula, or King's Evil, and Swelling of the Glands,

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action of purifying the blood and strengthening the system renders them more suitable than any other remedy for all complaints of a scrofulous nature. As the blood is impure, the liver stomach and bowels being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Chiegofoot	Fistulas	Sore-throats
Bad Breasts	Chilblains	Gout	Skin-diseases
Burns	Chapped Hands	Glandular	Scurvy
Bunions	Corns (Soft)	Swellings	Sore-heads
Bite of Mosquitoes and Sand-Flies	Cancers	Lumbago	Tumours
Coco-bay	Contracted and Stiff Joints	Piles	Ulcers
Scalds	Elephantiasis	Rheumatism	Wounds
			Sore Nipples

Sold at the establishment of PROFESSOR HOLLOWAY, 244 Strand (near Temple Bar) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world at the following prices:—1s. 1½d; 2s. 9d; 4s 6d, 11s., 22s., and 33s. each Pot.

☞ There is a considerable saving by taking the larger sizes.
